

Design Partner Program — Buyers (OEM)

For aerospace, defense and precision manufacturers managing 20–500 suppliers.

Limited to 5 founding buyer organizations — 2026 cohort.

The offer in one line: free use of Jitiuvi for 6 months in exchange for structured feedback and a reference — then a permanent 50% founding-partner discount for life.

What you get

- Full platform access — unlimited users, unlimited suppliers, every module: scorecards, NCR/SCAR, POs & quotes, certifications, marketplace, analytics, EDI/ERP connectors.
- Free for 6 months. No card, no auto-charge, no obligation to continue.
- 50% off list price for life if you convert — locked to your account, never expires.
- Direct line to the founder — shared Slack/Teams channel, same-business-day replies.
- Roadmap influence — your top 3 requirements go to the front of the build queue.
- White-glove onboarding — we load your supplier list, historical NCRs and PO data for you.
- Free data export at any time. Your data leaves with you if you walk.

What we ask in return

- Use it for real — at least 10 active suppliers and live transactions, not a sandbox.
- One 30-minute feedback call per month for 6 months.
- Report bugs and gaps as you hit them (in-app reporting is built in).
- At month 6: a short written testimonial and logo permission if it delivered value. If it didn't, tell us why — that costs you nothing.

Who this is for

Aerospace, defense and precision manufacturing companies managing 20–500 suppliers with an AS9100 or ISO 9001 quality system, currently running supplier management on spreadsheets, email and a legacy ERP module. Typical sponsor: Quality Manager, Supply Chain Manager, or Director of Procurement.

Timeline

When	What happens
Week 0	30-minute discovery call, confirm fit and scope
Week 1	Account provisioned, supplier + PO data loaded, 60-min admin training
Weeks 2–4	Supplier invitations go out, first scorecards run
Months 2–6	Monthly feedback call, prioritized fixes shipped
Month 6	Convert at 50% for life — or export your data and walk away

Why we're doing this

Jitiuvi is built by someone who has lived supplier quality in aerospace. We would rather have five real programs shaping the product than fifty trials nobody uses. Design partners get a tool built around their workflow instead of a generic SRM — at a price no later customer will ever see.

Next step

Book a 30-minute discovery call. If it isn't a fit, we'll say so on the call.

founder@jitiuvi.com • jitiuvi.com/design-partners • Book a call: [Calendly link]

Jitiuvi is an independent product. Offer terms are subject to a signed design-partner agreement. Data is isolated per company with row-level security and encrypted in transit and at rest.
